4 ways to find what you are looking for!

1

Stand out from the crowd

Present your products on lifelike models

Demonstrations using the RealSpine training system are an excellent way to generate interest in your product and appeal to your target audience. Their realism is convincing and differs from conventional presentations.

2

Offer the best possible customer experience

Demonstrate your products as they are actually used

RealSpine provides lifelike anatomy including bleeding for a realistic learning experience. All Realists training systems can be operated with real surgical instruments, allowing realistic haptics and hand-eye coordination.

3

Provide high-quality customer education

Enable cost-effective application training anywhere, anytime

Training with Realists training systems does not place any special demands on hygiene and premises. This, together with the Realists' expertise, make its organization uncomplicated and cost-effective.

4

Optimize product development

Implement realistic use cases early stage

Product tests based on real use case scenarios in early and later development phases save money and support the optimization of product quality.
